

## plotSimulationCosSinStats

Search for available trainings or test dataset and plot dataset. Follow user input dialog to choose which dataset to plot and statistics of cos sin. Save created plot to file. Filename same as dataset with attached info.

### Syntax

---

```
plotSimulationCosSinStats()
```

### Description

---

**plotSimulationCosSinStats()** plot training or test dataset which are loacated in data/test or data/training. The function list all datasets and the user must decide during user input dialog which dataset to plot. It loads path from config.mat and scans for file automatically.

### Examples

---

```
plotSimulationCosSinStats()
```

### Input Argurments

---

None

### Output Argurments

---

None

### Requirements

---

- Other m-files required: None
- Subfunctions: None
- MAT-files required: config.mat
